

Designed for high energy yields and silent operation, the XS PLUS+ series is an ultra-small solar inverter for residential PV systems. Installed inside the house or on an outside wall, it supports multiple smart home integration protocols and is compatible with high-power modules, catering up to 15A. Additional functionalities, including power export limiting and load monitoring, can be provided with the GoodWe HomeKit 1000.

Increased yield (110% AC power)

Low start-up voltage

Compact and lightweight
